SECTION I

This section describes the policy of the Company on the subject of compensation of the Members of the Board of Directors and the Executives with strategic responsibilities with reference to the year 2013 together with the procedures used for the adoption and implementation of the policy. The policy establishes the principles and guidelines on the basis of which compensation is determined.

a) Bodies and individuals involved in the preparation and approval of the compensation policy, specifying their respective roles, and the bodies or individuals responsible for the correct implementation of the same policy

The Policy is prepared by the Appointments and Compensation Committee and is submitted annually by the said Committee to the examination and approval of the Board of Directors. After examining and approving the policy, the Board of Directors submits it to the consultative vote of the Shareholders' Meeting.

The Policy is structured as follows:

- i) The Shareholders' Meeting establishes the fixed fee for the members of the Board of Directors when they are appointed and for the entire duration of their mandate.
- ii) The Shareholders' Meeting expresses a vote, which is non-binding, on the Policy approved each year by the Board of Directors.
- iii) The Shareholders' Meeting approves the share-based compensation plans for the Chairman and for the Chief Executive Officer of the Company and for employees of the Group.
- iv) At the proposal of the Appointments and Compensation Committee and having heard the opinion of the Statutory Auditors, the Board of Directors establishes the compensation of Directors with special positions.
- v) The Board of Directors establishes the compensation of non-executive Directors for being on one or more committees.
- vi) The Chief Executive Officer establishes the compensation of Executives with strategic responsibilities who are not members of the Board of Directors.
- vii) The Appointments and Compensation Committee has responsibility for processing proposals made to the Board of Directors regarding the compensation of Directors holding special positions, for preparing the Policy and submitting it to the examination of the Board of Directors. The Appointments and Compensation Committee also has responsibility for putting proposals before the Board of Directors regarding the features of share-based compensation plans: these plans are then submitted to the approval of the Shareholders' Meeting. The latter approves the plan and delegates the Board of Directors to approve its Regulations, identify the beneficiaries and the number of rights to assign to each of them.

b) Intervention, where applicable, of a Compensation Committee or any other committee with competence on the subject, with a description of its composition, competences and the way it works

As indicated above, the Appointments and Compensation Committee takes part in the preparation of the Policy to submit to the Board of Directors.

The Committee is made up of Independent Directors Giampio Bracchi, Michael Pistauer, Claudio Recchi, Dominique Senequier and Guido Tabellini.

The Appointments and Compensation Committee:

- Submits to the Board of Directors proposals relating to the compensation policies for Directors and Executives with strategic responsibilities;
- Gives opinions jointly with the Control and Risk Committee on proposals relating to the compensation policies for the head of internal auditing and the executive responsible for the preparation of the Company's financial statements and governance documents;
- Puts forward proposals for the compensation of the Chief Executive Officer and the Directors holding special positions, which can also include compensation plans involving the assignation of stock options or other share-based incentives;
- Puts forward proposals to the Board on the subject of share-based compensation plans for employees (preparing the specific Rules of the same), identifying the beneficiaries and the number of options to assign to each of them and, at the indication of the Chief Executive Officer, on the criteria for the compensation of the managerial staff of the Company;
- Periodically assesses the adequacy, the overall consistency and the practical application of the compensation policy for Directors and Executives with strategic responsibilities.

c) Possible intervention of independent experts

In the preparation of the Policy no independent experts were involved.

d) Aims pursued with the compensation policy, principles underpinning it and any changes in the compensation policy from one year to the next

Compensation policies are aimed at guaranteeing competitiveness in the labour market in line with the objectives of growth and rewarding the loyalty of human resources, as well as using different instruments of compensation for different types of professionalism, competences and roles in the Company.

The guidelines of the Policy are established according to criteria that can attract, keep and motivate persons with adequate professional qualities to manage the Group effectively.

The Company ensures that compensation is aligned with market benchmarks, applying bonus compensation criteria and parameters in particular situations of merit.

The Policy did not change substantially in the year under examination compared to the previous year.

e) Description of the policies on the subject of fixed and variable items of compensation with particular reference to an indication of their respective weighting in the overall compensation and distinguishing between the variable items in the short versus the medium-long term

The compensation assigned to the Chairman and the Chief Executive Officer, as executive Directors, and to the non-executive Directors for being on one or more committees, is established every year as a fixed amount on the basis of the commitment required of each of them.

The compensation package of the Chairman, of the Chief Executive Officer and of the Executives with strategic responsibilities is made up partly of cash and partly of financial instruments.

The part in cash does not exclude variable items, although CIR, as a holding company, operates both in mature sectors with relatively constant cash flows and in sectors with higher growth potential and in very different kinds of businesses (publishing, energy, automotive components, healthcare), for which it is particularly difficult to identify specific performance parameters. Consequently the compensation policy for the Chairman and for the Chief Executive Officer and the Executives with strategic responsibilities was determined exclusively on the basis of a pay package consisting of a part in cash and a part in shares of the Company.

The compensation plans based on the shares of the Company are approved by the Shareholders' Meeting and take into account the indications given in Art. 6 of the Code of Conduct, with a view to the pursuit of the top-priority objective of creating value for the Shareholders in the medium-long term. More specifically:

- The Units that are the subject of the Plan vest every three months as from the first day of the second year after the grant date and for a period of almost two years, thus having an average vesting period that is substantially in line with the one recommended in the Code of Conduct (three years);
- Exercise of all the units assigned is subject to reaching the performance objectives linked to the performance of the share;
- A period of unavailability of part of the shares granted (10% of the total) is established for a period of 5 years from the grant date.

f) Policy followed in relation to non-monetary benefits

The Chairman of the Company is the beneficiary of insurance policies. There are no (non-monetary) benefits in favour of the Directors.

In line with market practice, the compensation package of Executives with strategic responsibilities also has certain benefits which include insurance schemes and private healthcare.

g) In relation to variable items, a description of performance objectives on the basis of which the former are assigned, distinguishing between short and medium-long term variables, and information on the link between the change in results and the change in compensation

Share-based compensation plans are one of the instruments used to supplement the compensation package with loyalty-rewarding benefits which are deferred over a set time frame and are linked to the achievement of certain performance objectives. The aim is to create value for the Shareholders in the medium-long term. More specifically, the Stock Grant Plan 2013 - submitted to the approval of the Shareholders' Meeting convened to approve, among other things, the Financial Statements as of December 31 2012 - involves the assignation of Units, which are free of charge and not transferable between living persons, each of which gives the right to be assigned free of charge one Share, the vesting of which, apart from the continuation of the directorship (or employment) for a certain period, is also subject to the Share reaching certain objectives in terms of performance on the Stock Exchange in relation to the FTSE Italia Mid Cap Index.

For a more detailed description of the features of Stock Grant Plan 2013, see the Information Document prepared as per the terms of Art. 84-*bis* of the Rules for Issuers, made available to the Shareholders' Meeting convened to approve the Financial Statements as of December 31 2012, which can be consulted on the Company website www.cirgroup.it, in the section Governance.

The principles underpinning Stock Grant Plan 2012, approved by the Shareholders' Meeting on April 27 2012, are contained in the Information Document for 2012, which can also be consulted on the Company website www.cirgroup.it, in the section Governance.

h) Criteria used for assessment of the performance objectives on which the assignation of shares, options or other financial instruments or other variable items of compensation is based

The criterion for measuring the performance objectives is that of correlating the performance of the Company's shares with that of index to which it belongs (the FTSE Italia Mid Cap).

The number of Units assigned to each Beneficiary is determined in relation to the role occupied by that person in the Company and the importance of the function carried out by each of them.

i) Information which aims to show how the compensation policy is consistent with the pursuit of the long-term interests of the company and with the risk management policy, where it has been formalized

When defining the compensation systems, the Board of Directors ensured that these systems take into good account the policies of pursuing the medium-long term objectives for creating value for the Shareholders.

To this end, as specified in point g) above, the share-based component takes into consideration a combination of two main elements: the passage of time and the appreciation of the share on the market in relation to the FTSE Italia Mid Cap index.

It is deemed appropriate to measure the performance of the CIR stock not in absolute terms but in relation to the general trend of the market, in order to separate out, where possible, the evaluation of the actual performance of the Share from general dynamics which may not necessarily be connected to the specific performance of the Company.

The Board is of the opinion that the presence of these two elements (time and performance) is appropriate both in order to give the loyalty of the beneficiaries of the plan an adequate reward as the continuation of the relationship is in itself a value for the Company and therefore also for its Shareholders, and also to ensure that there is an incentive to better performance as the exercise of the Units is also subject to reaching certain results in terms of appreciation of the CIR stock in the market compared to the FTSE Italia Mid Cap index, which is a parameter that the Board considers appropriate to foster an alignment of the interests of management with those of the Shareholders in the medium and long term.

In defining systems of compensation, the Board of Directors also made sure that these systems gave appropriate consideration to the “Guidelines on the subject of the system of control and risk management” approved by the Board of October 29 2012.

Again with a view to ensuring that the interests of management are aligned with those of the Shareholders over the medium-long term, there is also a deferred vesting period and a minimum holding requirement (see point j) below).

j) The vesting period, the deferred payment systems, with an indication of the periods of deferral and the criteria used to determine these periods and, where applicable, ex post correction mechanisms

As stated in the previous point e), Stock Grant Plan 2013 stipulates that, subject to reaching certain results in terms of the appreciation of the CIR stock in the market in relation to the FTSE Italia Mid Cap Index, the Units assigned to the beneficiaries

will vest as from two years after they are assigned, according to the following timing:

- Up to a maximum of 12.5% of the total Units assigned as from April 30 2015;
- Up to a maximum of 25% of the total Units assigned as from July 31 2015;
- Up to a maximum of 37.5% of the total Units assigned as from October 31 2015;
- Up to a maximum of 50% of the total Units assigned as from January 31 2016;
- Up to a maximum of 62.5% of the total Units assigned as from April 30 2016;
- Up to a maximum of 75% of the total Units assigned as from July 31 2016;
- Up to a maximum of 87.5% of the total Units assigned as from October 31 2016;
- Up to a maximum of 100% of the total Units assigned as from January 31 2017.

The Units that have vested must in any case be exercised by the final maturity of April 29 2023.

The periods of deferment give the beneficiaries a reasonable time horizon in which to achieve the economic benefits of the Plan, in line with the objectives of rewarding loyalty and aligning the interests of management with those of the Shareholders (in the long term) that the plan aims to fulfil.

k) Information on any clauses relating to holding the financial instruments after their acquisition, with an indication of the holding periods and of the criteria used to determine such periods

Stock Grant Plan 2013, which will be submitted to the approval of the Shareholders' Meeting, includes a minimum holding requirement for the Shares assigned: in the event that the Units have vested and the relative Shares have been assigned, each beneficiary irrevocably undertakes to hold at least 10% of the Shares assigned until the fifth anniversary of the Grant Date. During this period, the Shares will be subject to a bond of inalienability, except where the Board of Directors should authorize otherwise.

l) Policy in relation to what payout is applicable when the position or the employment terminates, specifying which circumstances give rise to the right to such payout and any link between the said payout and the performance of the Company.

The Chairman receives an end of mandate benefit (TFM) as per the terms of rules currently in force, subject to approval by the Board of Directors. Except where

application of the law requires otherwise, no sum is payable when the mandate of Directors terminates.

Regarding Executives with strategic responsibilities, bound to the Company by an employment relationship, the rules of law and the agreements of the National Contract for Industry Executives apply on the subject of termination of employment.

m) Information on the presence of possible insurance cover, in the sense of pension plans other than those that are obligatory

In line with best practice, an insurance policy (Directors & Officers) has been taken out against civil liability towards third parties for the various corporate bodies and the Executives in the exercise of their functions with the aim of protecting the Group from the risk of having to pay compensation, except for cases of wilful misconduct or gross negligence.

n) Compensation policy followed where applicable in relation to: (i) independent directorships, (ii) committee membership and (iii) special positions (chairman, deputy chairman etc.)

Compensation, in addition to the ordinary fee, is envisaged for Independent Directors who are on any Committees.

Directors holding special positions (Honorary Chairman and Director - Chairman - Chief Executive Officer) benefit from the compensation described in the preceding paragraphs.

o) If the compensation policy has been defined using the compensation policies of other companies as a reference, the criteria used for the choice of any such companies

The compensation Policy was prepared without any specific reference to the policies of other companies. In fact it is considered that the Policy is consistent both with the objectives of the Group and with the typical characteristics of the same, in terms of business carried out and size.

SECTION II

1.1 Part One

1.1 Items making up compensation

Board of Directors

The compensation of the Directors consists of a fixed part determined by the Shareholders' Meeting on their appointment for the whole duration of their mandate.

Directors holding special positions

The Honorary Chairman and Director - the Chairman and the Chief Executive Officer receive a further fixed item of compensation. The Chief Executive Officer is a beneficiary of share-based compensation plans.

Non-executive Directors

Non-executive Directors receive a further fixed fee if they are on any of the Internal Committees (Internal Control Committee – now known as the Control and Risk Committee, Committee for Related Party Transactions, Compensation Committee, Appointments Committee – the latter two now combined in a single Committee known as the Appointments and Compensation Committee).

Board of Statutory Auditors

The fee is determined as a fixed sum by the Shareholders' Meeting on their appointment for the whole duration of their mandate. The fee for the Chairman is different from that of the other Statutory Auditors.

Executives with strategic responsibilities

The compensation package is made up of the following: fixed fee plus share-based compensation plans. In addition, there are insurance schemes and private healthcare in line with the terms of the applicable National Contract for Industry Executives.

1.2 With particular reference to agreements involving compensation in the event of the early termination of the relationship, the following information applies:

1.2.1 Existence of such agreements

No agreements have been entered into involving any compensation paid to Directors in the event of early termination of the relationship.

Executives with strategic responsibilities receive compensation in the event of their employment relationship being terminated without a just cause or without any good reason given by the employer, in accordance with the National Contract for

Industry Executives and with the terms of the law, which establish limits as to the quantity of the payoff.

1.2.2 Criteria for determining the compensation entitlement of each individual

Executives with strategic responsibilities are entitled to compensation in the cases envisaged by the National Contract for Industry Executives.

1.2.3 Presence of any performance criteria to which the assignation of the compensation is subject

There are no performance objectives connected with the assignation of compensation.

1.2.4 Effects of the termination of the relationship on the Units assigned within the scope of the share-based incentive plans or cash payouts

The Units allocated under the Stock Grant Plans are assigned to the Beneficiaries personally and cannot be transferred on any account by deed between living persons. The right to exercise the Units is also subject to the employment or the directorship relationship continuing between the beneficiary and the Company or the subsidiary of the same.

In the event of the termination of the employment or directorship relationship, for whatever reason, including the death of the beneficiary, the beneficiaries or their heirs will keep entitlement only to the Units that had already vested when the relationship terminated.

1.2.5 Cases in which the right to compensation exists

See point 1.2.1. above.

1.2.6 The existence, where applicable, of agreements involving the assignation or the maintenance of non-monetary benefits in favour of individuals who no longer hold the position or have signed a consulting contract for a period following the termination of their employment relationship

No agreements of this kind have been signed.

As stated above, in the event of termination of the employment or directorship for whatever reason, including the death of the beneficiary, the Stock Grant Plan provides that the beneficiaries or their heirs keep the entitlement to the Units that had already vested at the time of the termination of the relationship.

The Board of Directors, at its own discretion, has the right to decide, and this decision cannot be contested, whether to allow one or more beneficiaries or their

heirs to keep the rights resulting from the Plan even when these rights would cease to exist, and in particular to keep part or all of the Units that have not yet vested.

1.2.7 Existence of agreements providing for compensation for non-competition undertakings

No agreements have been signed involving compensation for non-competition undertakings.

1.2.8 With reference to directors who left their positions during the year, any changes in the determination of the compensation compared to the terms of the agreement on the same

Not applicable.

1.2.9 Where there are no specific agreements on the subject, specific information on the criteria used to determine the leaving indemnity matured

During the year 2012 sums of leaving indemnity, calculated as per regulations, were paid out.
