2) Composition and functioning of the Board of Directors (as per Art. 123-bis, paragraph 2, letter d) of the T.U.F.)

For the rules of a general nature regarding the composition and functioning of the Board of Directors, reference should be made to what is indicated in Art. 2 of the Code of Conduct of CIR S.p.A., attached to this document, as well as to what is stated in Art. 1 of the same regarding the functions carried out by the Chairman.

The Shareholders' Meeting held on April 29 2013 re-determined the number of members of the Board of Directors, appointing Ms Monica Mondardini. As per the rules, the new director – on her appointment – filed a declaration attesting that there were no reasons why she could not be elected or why she was incompatible as per the terms of the law, that she possessed the requisites of integrity and professionalism required by current regulations and by the company bylaws. The Director was drawn from the single list presented by the Shareholder COFIDE S.p.A, owner – at the date of the cited Shareholders' Meeting – of an interest representing 45.853% of the share capital.

The Board therefore consists of thirteen Directors, two of whom have executive status (The Chairman and the Chief Executive Officer), while eleven are non-executive.

In consideration of their number and their authority, the non-executive Directors provide a guarantee that their judgment shall have significant weight in the resolutions adopted by the Board; they each bring their own individual expertise to Board debates and contribute to the adoption of decisions in the interest of the Company.

The “Independent Directors” make up the majority of the Board.

The composition of the Board of Directors of the Company is therefore appropriate to guarantee sufficient conditions of operational independence, aimed at maximizing the economic and financial objectives of the Company.

It should be remembered that the mandate of the Board of Directors currently in office will terminate with the approval of the Financial Statements for the year ended December 31 2013.

7) System of Internal Control and Risk Management (As per Art. 123-bis, paragraph 2, letters b and d) T.U.F.)

The system of internal control is the body of rules, procedures and organizational structures that enable the main risks to be identified, measured, managed and monitored.

The aims of the Control and Risk System, and the bodies and functions responsible are detailed in Art. 7 of the attached Code of Conduct of CIR S.p.A.

Within the sphere of the Control and Risk System, during the year 2013 the Board of Directors:

- a) On October 29 2012 approved new guidelines for the Company on the subject of the internal control and risk management system, which were applied as from January 1 2013, and are reproduced in the above cited Art. 7 of the Code of Conduct of CIR S.p.A.;
- b) Identified the nature and level of risk compatible with the strategic objectives;
- c) Evaluated the adequacy, effectiveness and efficiency of the System of Control and Risk in relation to the business and the risk profile assumed, taking also into account the assessments made by the Director Responsible and by the Control and Risk Committee;
- d) Approved, at the proposal of the Control and Risk Committee, the Audit Plan, after hearing the opinion of the Board of Statutory Auditors and the Director Responsible.

On the basis of the resolution adopted by the Board of Directors on March 20 2001, the Chief Executive Officer is the executive director responsible for ensuring that the internal control system works effectively and that it is adequate. He or she does this partly by defining procedures that will guarantee sound and efficient management and also by identifying, pre-empting and managing, as far as possible, any financial and operational risk and any fraud against the Company, availing himself of the assistance of the Control and Risk Committee.

The Board of Directors with its resolution adopted on May 4 2000 set up the Internal Control Committee which was given the function of preparing proposals and acting in a consulting capacity and which acts along the lines set out by the Code of Conduct.

The Chairman of the Board of Statutory Auditors or another Statutory Auditor designated by the Chairman attends the Committee meetings.

The Members of the Control Risk and Committee are Independent Directors: Maristella Botticini, Giampio Bracchi (Chairman of the Committee) and Silvia Giannini.

It should be noted that the Board of Directors on January 28 2013 appointed Mr Giuseppe Gianoglio as Executive responsible for the preparation of the financial statements and corporate documents. On March 11 2013 the Board of Directors appointed Mr Andrea Bergaglio as head of the Internal Auditing function. During 2013 the Committee held eight meetings which lasted for an average of about two hours. Minutes of the meetings were taken regularly.

8) Statutory Auditors (as per Art. 123-bis, paragraph 2, letter d) T.U.F.)

The appointment and functioning of the Statutory Auditors are regulated by Art. 19 of the Company Bylaws which is reproduced in Art. 8 of the Code of Conduct of CIR S.p.A.

The Statutory Auditors are selected from persons who can be qualified as independent following the criteria applied to the Directors. During 2013 the Board of Statutory Auditors checked that the above criteria were being complied with, ensuring that the results of this check were shown in this report.

The Board of Statutory Auditors currently in office will terminate its mandate with the approval of the Financial Statements as of December 31 2013 and is made up as follows:

9) Relations with Shareholders

The Company has always endeavoured to establish and maintain an effective dialogue with its Shareholders and with the market, using various forms of communication including for example the following: presenting the results of the Company and the Group during Shareholders' Meetings using slides, meeting with financial analysts and institutional investors in Italy and abroad, informing the public by making the corporate governance documents required by law, press releases and presentations available on the website of the Company.

The Company also adheres to the principles of the Guide for Disclosing Information to the Market.

To this end the Chief Executive Officer appointed the Central Finance Director, Mr Michele Cavigioli, to be in charge of the Investor Relations function, to manage the flow of information to Shareholders, financial analysts and institutional investors, in compliance with the rules established for the disclosure of the Company's information and documents.

10) Shareholders' Meetings (als per Art. 123-bis, paragraph 2, letter c) T.U.F.)

It has always been the policy of the Company to use the Shareholders' Meeting as an opportunity to give the Shareholders information about the Company and the Group and their prospects for the future, while complying with the procedure concerning price-sensitive information.

All the Directors and Statutory Auditors endeavour to be present at Shareholders' Meetings as far as possible but particularly those Directors who can make a positive contribution to the debate in view of the positions that they hold.

The procedures and timing for calling Shareholders' Meetings are regulated by Art. 15 of the Company Bylaws, which is reproduced in the attached Code of Conduct of CIR S.p.A.

The Shareholders' Meeting held on April 27 2001, in accordance with the terms of the Code of Conduct of Borsa Italiana S.p.A., approved and subsequently updated a set of Regulations for conducting Shareholders' Meetings, which can be consulted on the internet website of the Company in the section "Governance".

The Board of Director makes available to the Shareholders a booklet containing the items on the Agenda of the Shareholders' Meeting in the time frame laid down by law. This booklet is also published on the Company's website in the section "Governance".

11) Code of Ethics

On March 7 2003 the Board of Directors approved the CODE OF ETHICS OF THE CIR GROUP, with the aim of defining in a clear and transparent way the code of values underpinning the action of the Group in the pursuit of its objectives and

establishing principles of conduct which are binding for directors, employees and other individuals who maintain relations with the Group.

The text of the CODE OF ETHICS can be consulted on the internet website of the Company in the section “Governance”.

12) Institution of a Supervisory Body and application of the organizational and operational model provided for by D.Lgs. 231/2001 (as per Art. 123-bis, paragraph 2, letter a) T.U.F.)

Legislative Decree no. 231/2001 containing the “Discipline regulating the administrative liability of legal entities, companies and associations without legal status, pursuant to Article 11 of Law no. 300 of September 29 2000” and subsequent amendments and additions introduced the criminal liability of entities for any fraudulent acts committed by people with a special functional relationship with the Company, where the alleged misdeed was carried out in the interest or to the advantage of the same Company; this liability was among other things subsequently extended by D.Lgs no. 61/2002 to cover corporate offences.

The decree provides that exemption for the company from such liability is possible provided that it can be demonstrated that the company had adopted and effectively put in place organizational models for the prevention of criminal offences and that it had given the task of monitoring the correct functioning of such models and making sure that they are fully updated to a controlling body equipped with independent powers to take the initiative and to carry out a control function.

To this end, after approving the Code of Ethics, the Board of Directors then set up the Supervisory Body on April 30 2003.

The members of the Supervisory Body are external lawyers Giuseppe Bianchi and Andrea Gottardo, and Mr Giuseppe Gianoglio.

During 2013 the Supervisory Body met four times and minutes were taken in line with standard practice.

The Supervisory Body of CIR S.p.A. monitored the functioning and observance of the Organization, Management and Control Model adopted by the Company, checking its effectiveness and evaluating any possible proposals for updating it, in accordance with the work program approved by the Board of Directors Meeting held on March 10 2011.

On September 5 2003 the Board of Directors also approved the “*Organizational Model*”, which was subsequently supplemented following the broadening of the scope of the law contained in D.Lgs. 231/2001.

13) Firm of Auditors

The Shareholders’ Meeting held on April 29 2008 awarded a mandate to the company Deloitte & Touche S.p.A. to audit the annual financial statements and the

consolidated financial statements and carry out the check that the company accounts are being held correctly for financial years 2008-2016.

CODE OF CONDUCT OF CIR S.p.A.

FOREWORD

The Code of Conduct of CIR S.p.A. (hereinafter "CIR" or the "Company") contains a description of the main duties and functions of the corporate bodies of the Company and of the internal control and risk management structure of the Company.

The description of these duties and functions is carried out in a structured way in a single document in which it is possible to find not only content but also specific reference to the applicable regulatory environment: the provisions of the law and of regulations, the terms of the Company Bylaws, and the principles of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. with which the Company complies.

On this subject at the Board of Directors Meeting held on October 29 2012, following the new rules of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. introduced in December 2011, the Company updated its own corporate governance and approved internal procedures as indicated in the Code.

Art. 1 – Role of the Board of Directors

Below are the provisions of the **Company Bylaws** on the subject of **the role of the Board of Directors**

ARTICLE 10

1. The Board of Directors is invested with broad powers for the administration of the Company. It can carry out any action considered appropriate for achieving the objective of the Company, whether such action pertains to ordinary or extraordinary administration, with no exclusions or exceptions, apart from that which the law and these Bylaws have established as mandatory for the Shareholders' Meeting.
2. The Board of Directors can therefore adopt resolutions approving a reduction of the share capital of the Company in the event of the withdrawal of Shareholders, amending the bylaws to bring them into line with new regulations, moving the Company headquarters anywhere in the country and also approving the merger by incorporation of either a fully owned subsidiary or a subsidiary in which it holds a stake of at least 90%, all in compliance with the provisions of Articles 2505 and 2505-bis of the Civil Code.
3. The Board of Directors can, within the limits of the law, delegate its powers, establishing the content and the limits of any such mandate, to an Executive Committee comprising some of its members, or to one or more of its members, possibly giving them the title of *Amministratori Delegati* (Chief Executive Officers/Managing Directors) and giving them the right to sign on behalf of the Company either individually or jointly. In order for the resolutions adopted by the Executive Committee to be valid, an absolute majority of its members must be present and must cast their vote in favour.
4. The Board may also appoint General Managers, subject to first checking that they possess the requisites of integrity stipulated by law, who may also be members of the Board. A lack of the requisites of integrity will mean that they will lose their position.
5. The Board can also appoint Officers with individual or joint signatures, establishing their powers and functions. It may also award mandates in general for certain actions or categories of actions.
6. The appointment of the Directors, Deputy Directors and Officers with the determination of their respective emoluments and functions can also be passed on by the Board to the Chairman or anyone acting for the Chairman, to the Managing Directors and to the General Managers.
7. The Board can set up from within its number committees with the function of consulting and making proposals, determining the scope of their activity and their powers.
8. The Board of Directors, at the proposal of the Chief Executive Officer and in agreement with the Chairman, subject to the favourable opinion of the Board of Statutory Auditors, shall appoint the officer responsible for the preparation

of the company financial statements, who must have adequate experience on the subject of accounting and finance.

9. The Board of Directors also monitors that the officer appointed to prepare the financial statements of the Company has sufficient powers and means to carry out the duties assigned to him and that the administrative and accounting procedures are actually being complied with..

ARTICLE 12

1. The Board shall meet when convened by the Chairman or whoever is taking his place, as a rule every three months and any time that the interests of the Company make it necessary, including at the request of two Directors.
2. The Board of Directors shall also meet when a meeting is called as per Art. 20 of these bylaws.
3. The Meeting is called by registered letter, telegram, fax or e-mail which must be received at least five days before the date fixed for the meeting or, in cases of urgency, at least the day before.
4. The meetings of the Board and its resolutions are valid, even when the meeting has not been formally convened, when the majority of the Directors in office and the Statutory Auditors are present even by telephone- or video-conference call, all those who have a right to attend have been notified in advance of the meeting and the participants are sufficiently informed on the topics to be dealt with.
5. The Meetings of the Board of Directors are chaired by the Chairman or, should the Chairman be absent, by one of the Deputy Chairmen or should there be no Deputy Chairmen by a Director designated by the Board.
6. In order for the Board resolutions to be valid and binding the majority of the Directors in office must be present.
7. Resolutions are taken with an absolute majority of the votes of those present and in accordance with the Rules for Related party Transactions. If the votes for and against are equal then the Chairman or whoever is taking his place casts his vote which is decisive.
8. Board resolutions are set out in writing in the minutes which are signed by the person chairing the meeting and by the Secretary.
9. Meetings of the Board of Directors can be held by video - or telephone-conference call on the condition that all the participants can be identified, that they are able to follow the discussion and intervene in real time on the items being treated and that they are in a position to receive, transmit and view documents. Once these conditions have been verified, the Board is considered as being held in the place where the Chairman is actually located.
10. When the minutes are not drawn up by a Notary, they are prepared by the Secretary and signed by the Chairman and the Secretary without delay.

ARTICLE 13

The Directors must report back to the Board of Directors and to the Board of Statutory Auditors on activities carried out and on anything else required by law at regular intervals at least once every three months when Board Meetings are held or whenever particular timing needs make it desirable. This report shall be made directly, in writing, or verbally and/or by telephone

Given the specific characteristics of the sectors that the CIR investee companies belong to, in application of the terms of Art. 1 of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A., the Board of Directors:

- On the basis of the internal procedures approved by the Board of Directors, examines and approves the strategic and financial plans of the Company and also examines the consolidated strategic, business and financial plans of the subsidiaries at the head of the groups in the various business sectors as presented by their respective Chief Executive Officers, assessing whether these plans are consistent with those of the Company and periodically monitoring their implementation. The procedures stipulate that the business plans and the budgets prepared by each company of the group should be the subject of discussion between the Chief Executive of the latter and the Chief Executive of CIR. The Chief Executive of CIR examines and evaluates the business plans and budgets of the companies of the group with the involvement and the support of the management of the parent company, availing him/herself, when there are elements of strong impact for CIR, of the contribution of the Chairman of the Control and Risk Committee and in any case keeping the Chairman of the Board of Directors informed. For the budgets, presentation to the respective Boards of Directors takes place by the end of the month of January;
- Defines the nature and level of risk compatible with the strategic objectives of the Company, as illustrated in Art. 7 below, taking into account in terms of possible impact of the main risks relating to the businesses of the subsidiaries, which in their turn must define the nature and level of risk compatible with the specific aspects of their business. The Company carries out a global risk assessment every year when the budget is approved;
- Evaluates the adequacy of the organizational, administrative and accounting structure of the Company with particular reference to the system of internal control and risk management;
- Acknowledges, possibly even with its own determination of the same, as per the terms of the Company Bylaws, how often the Chief Executive Officer must refer back to the Board on the activity carried out in the exercise of the powers assigned to him;
- Assesses the performance of operations, taking into account specifically the information received from the Chief Executive Officer of the Company and from the Chief Executives of the main subsidiaries, analysing the businesses and the evolution of the economic and patrimonial situation of the Company and of the Group;

- Examines and gives prior approval to transactions put in place by the Company and examines those of the subsidiaries that have significant strategic importance. To this end the Board of Directors defines its parameters for measuring significance, adopting a special procedure;
- Carries out generally once a year an assessment of the size, composition and functioning of the Board of Directors itself and of its committees, taking into account elements such as the professional characteristics, experience, even managerial experience, and the gender of its members as well as how long they have held their positions
- Can give the Shareholders, before the appointment of a new Board, its views on the professional figures whose presence on the Board would be considered useful;
- In order to ensure the correct management of company information, the Board of Directors adopts a procedure for managing internally and communicating externally documents and information, with particular reference to privileged information, which it makes available on the Company's website;
- Gives information in the Report on Corporate Governance on its composition and on the times and procedures for holding its meetings and on the self-assessment process.

The Directors act and adopt resolutions independently on the basis on their knowledge and good judgment and they accept the position when they consider that they can dedicate the necessary time to carrying out their duties, bearing in mind also their commitment in relation to their work and professional activities, the number of directorships or positions of statutory auditor that they hold in other companies listed on regulated markets (even foreign ones), finance companies, banks, or insurance companies or companies of a significant size. They are also required to inform the Board of Directors of any other activities they may have in competition with the Company and of any significant changes that occur in the positions they hold in other companies.

Still in application of the terms of Art. 1 of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. the Board of Directors has approved the following:

Guidance regarding the maximum number of positions as director or statutory auditor in other companies listed on regulated markets, including foreign markets, in financial companies, banks, insurance companies or companies of a significant size ("Significant Companies"):

a) General criteria for evaluation

1. Exclude the possibility that an executive director of CIR can take on other positions as executive director or statutory auditor in Significant Companies not belonging to the CIR group or that of its parents companies;
2. For the executive directors of CIR, possibility of holding other positions

with a maximum limit of three as non-executive director in Significant Companies not belonging to the CIR group or to the group of its parent companies;

3. For the non-executive directors of CIR, possibility of holding other positions with a maximum limit of five as non-executive director and/or statutory auditor and two as executive director in Significant Companies not belonging to the CIR group or to the group of its parent company ;
4. Positions held in Significant Companies belonging to the same group will count as a single position (and that single position will be considered as that of an executive director for the purposes of the calculation of the limits, if at least one of the positions held in the same group is as executive director);
5. “Companies of a significant size” means companies that exceed at least one of the following limits: revenues of over Euro 500 million, total assets of over Euro 1,000 million, over 2,000 employees.
6. “Financial companies” means only those companies that exercise the business of supplying financial services to the public, and which are subject to supervision.

b) Possible waiver of the general criteria

The general criteria described above can always be waived in relation to one or more directors with a resolution taken by the Board of Directors giving the reasons for the waiver. In deciding on the waiver the Board of Directors may also take into account the director’s attendance record at CIR board meetings and committee meetings.

It should also be noted that the Board of Directors assesses the independence of its Directors at least once a year, taking into account the information that the individuals involved are required to produce. While the terms of Art. 147-ter, paragraph 4, of the Finance Consolidation Act (T.U.F.) remain applicable, the Company intends to introduce the obligation for any Director who has lost the qualification of independence as per the terms of the Code of Conduct (Criterion 3.C.1) to resign his or her position, without prejudice for the right of the Board of Directors to evaluate each specific case possibly allowing waivers to the rules.

Information will be given of any waivers of the above approved by the Board of Directors in the Annual Report on Corporate Governance.

Below is what the **Company Bylaws** stipulate on the subject of the **Chairman of the Board of Directors**

ARTICLE 11

The Chairman of the Board of Directors is the legal representative of the Company. Legal representation is also entrusted to the Deputy Chairmen, to

the Managing Directors/Chief Executive Officers and to the General Managers and to anyone else designated by the Board of Directors, severally within the limits of the powers assigned to them individually, or otherwise jointly with another individual also having joint powers.

In application of what is stated in Art. 1 of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. the Chairman of the Board of Directors:

- convenes meetings of the Board of Directors and makes sure that all the members of the Board and the Statutory Auditors receive, at least three days before the meeting (except in cases of necessity or urgency), all the documentation and information necessary to enable them to express their opinion in a knowledgeable way on the topics submitted for examination and approval; if the documentation is voluminous or complex, it can be supplemented with a summary document and, when there are directors whose language is not Italian, the documents for the meetings are also prepared in English;
- coordinates the activity of the Board of Directors and directs the proceedings at its meetings, ensuring that the items on the agenda receive sufficient time necessary for a debate and encouraging the directors to make their contribution;
- can ask the Chief Executive Officer, even at the request of one or more directors, for executives of the Company and of the companies of the group to be present at Board meetings to explain items in greater detail.

Art. 2 – Composition of the Board of Directors

The Board of Directors is made up of executive and non-executive Directors who have adequate competence and professionalism.

The non-executive Directors bring their specific competences to the Board discussions, contributing to the adoption of judicious decisions and paying particular attention to the areas in which conflicts of interest can emerge.

The composition of the Board of Directors of the Company – even in relation to number, competence, authoritativeness and availability of time that the non-executive Directors have – must be suitable to guarantee conditions of managerial autonomy, directed towards the maximization of the economic and financial objectives of CIR.

The composition of the Board of Directors also respects the balance between the genders prescribed by current legislation and by Art. 8 of the Company Bylaws reproduced further on.

The Company complies with the so called ban on interlocking directorates, which was introduced by Art. 2.C.5 of the Code of Conduct of Borsa Italiana S.p.A., i.e. the principle that the chief executive officer of an issuer cannot take a position as

director of another issuer not belonging to the same group, in which a director of the issuer is chief executive officer.

The Directors are expected to know their duties and the responsibilities inherent in the position.

The Chairman makes sure that the Directors and Statutory Auditors, following their appointment and during their mandate, can take part in initiatives aimed at giving them an adequate knowledge of the business sector in which the Company operates, of the Company dynamics and the evolution thereof, and of the relevant regulatory environment. As far as information on the business sectors is concerned, each executive Director gives a briefing on the performance of the business at the meetings of the Board of Directors on an ongoing basis and in a more extended form at least once a year.

In relation to the regulatory environment, special information sessions may be organized for the Directors with the support of professional training experts when the Board of Directors is renewed and, subsequently, any time that changes in the regulatory framework make an update on the subject appropriate

The Board of Directors designates a lead independent director. The lead independent Director is a point of reference who coordinates the requests and the contributions of the non-executive Directors, particularly the independent Directors. He or she collaborates with the Chairman to guarantee that the Directors receive full information flows on a timely basis. Among other things the Lead Independent Director, either independently or at the request of other Directors, also has the right to call a meeting of just the independent Directors to discuss topics considered of interest to the running of the Board of Directors or the management of the Company.

Regarding the possibility that issuers adopt mechanisms ensuring different maturities of all or some of the members of the administrative body (a staggered board), the Company did not deem it necessary to adopt this measure as it is not appropriate given the ownership structure of CIR.

Art. 3 – Independent Directors

In compliance with the requirements for issuers subject to management and coordination by another company listed on regulated markets terms of the Regulations containing rules for implementing D.Lgs. 58/1998 on the subject of the markets, adopted by Consob with its Resolution 16191/2007, the Independent Directors make up the majority of the members of the Board of Directors.

In accordance with what is recommended by the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. “Independent Directors” are considered as those directors:

- a) who do not either directly or indirectly, even through subsidiaries, fiduciaries or any third persons, control the Company, and who are not able to exert a

- significant influence on it, and who have not entered into a shareholder pact through which one or more persons may exercise control or a significant influence on the company;
- b) who do not hold or have not held in the previous three years an important position in the Company, in one of its subsidiaries of strategic importance or in a company subject to the joint control of the Company, or in a company or an entity which, with others through a shareholder agreement, controls the Company or is able to exercise considerable influence over the same;
 - c) who do not have or have not had in the previous year a significant commercial, financial or professional relationship either directly or indirectly (for example through subsidiaries or companies in which they have a significant role either as partner of a professional firm or of a consulting company) with:
 - the Company, one of its subsidiaries or with any persons of significant status in the same;
 - with a person or entity who even with others through a shareholder agreement, controls the Company or – where companies or entities are involved – with any persons who have a significant status in them;or that they are not, or have not been in the previous three years, employees of one of the above entities;
 - d) who do not receive, or have not received in the previous three financial years, from the Company or from one of its subsidiaries or parent companies any significant remuneration in addition to their “fixed” fee as non-executive Directors of the Company, and the fee for being on the committees recommended by the Code of Conduct for listed companies, even in the form of participation in performance-related incentive plans even those involving shares;
 - e) who have not been Directors of the Company for more than nine of the last twelve years;
 - f) who do not hold the position of executive Director in another company in which an executive Director of the Company holds the position of director;
 - g) who are not shareholders or Directors of companies or of an entity belonging to the network of the company awarded the legal audit mandate by the Company;
 - h) who are not close family members of a person who is in one of the situations specified in the previous points.

Should any of the situations listed in the Code of CONDUCT OF BORSA ITALIANA S.P.A. as conditions for the non-independence of non-executive Directors exist, the Board of Directors shall examine on a case-by-case basis whether or not the individual has the necessary requisites to be qualified as an Independent Director.

On the basis of paragraph 4, Art. 147-ter of the T.U.F., at least one member of the Board of Directors, or two if the Board of Directors has more than seven members, must have the requisites of independence established for statutory auditors and therefore in accordance with the terms of paragraph 3, Art. 148 of the T.U.F., the following individuals cannot be considered as independent:

- a) the spouse, relations and relatives up to the fourth degree of kinship of the Directors of the Company, the Directors, the spouse, relations and relatives up to the fourth degree of Directors of the companies controlled by the former and of the companies which control it and those subject to joint control;
- b) those who are linked to the Company or to the subsidiaries of the Company or to companies which control it or to companies subject to joint control or those linked to the Directors of the company and to the individuals mentioned in the previous point through a working relationship, be it of regular employment or of a freelance nature, or by any economic or professional relationship which could compromise their independence.

The independence of the Directors is assessed by the Board of Directors when they are appointed and then once a year. The Board gives the outcome of its assessment in the Report on Corporate Governance.

Art. 4 - The institution and the functioning of the internal committees of the Board of Directors

The Board of Directors sets up from among its members one or more committees, the function of which is to make proposals and give advice, defining their duties.

below.

Board of Statutory Auditors

The Board of Statutory Auditors monitors the effectiveness of the Control and Risk System. In carrying out its functions the Board of Statutory Auditors can ask the Head of the Internal Audit department to carry out checks on specific operating areas or company transactions, advising the Chairman of the Board of Directors. The Board of Statutory Auditors and the Control and Risk Committee exchange the information they need to carry out their duties on a timely basis.

Supervisory Body

The Supervisory Body set up as per the terms of D.L.gs 231/2001 carries out the duties assigned to it by the Company's Organization Model and collaborates and exchanges information regularly with the Control and Risk Committee, the Board of Statutory Auditors and the Director Responsible.

Other competent bodies and departments

The other bodies and departments of the Company with competence in the area of internal control and risk management include the Officer Responsible for the preparation of the financial statements and all of the procedures and bodies that make up the structure of the Company.

Risk management

The risk management system is organized with the following three levels of control:

- a) The operating functions within the Company note the risks and establish any action to be taken to manage them;
- b) The risk management functions carry out a constant analysis and monitoring activity;
- c) The Internal Audit department controls the functioning of the System and gives its own independent assessments.

Definition of the nature and level of risk compatible with the strategic objectives of CIR

At least once a year when the budget is prepared, CIR carries out an overall assessment of its risks, quantifying them and evaluating their possible impact both of the achievement of results and in general on the management of its portfolio of equity investments.

The analysis is carried out with the methodological support of the document "Risk analysis and evaluation" given as an attachment (Annex a), which forms an integral part of this document. The outcome of this activity is a document that describes in full the level of risk for each business area and

defines the action planned to mitigate the risks. The general content of the information produced is given in the document (Annex b) and must be discussed by the Risk Manager with the company management and with the Control and Risk Committee. The Control and Risk Committee can request clarification and/or additional information to be given in the document so that it can report back exhaustively to the Board of Directors. The Board of Directors must be put in the condition to be able to then easily assess whether the level of risk compatible with the strategic objectives of the Company is acceptable as it is set out in the document prepared by management and discussed with the Control and Risk Committee. The Board of Directors must give its opinion on the mitigation action proposed and on the amount of any residual risk.

The examination, discussion and definition by the Board of Directors of the nature and level of risk compatible with the Company's objectives is carried out through a critical analysis of the Control and Risk Committee's evaluation of the probability/impact of the risk and takes into consideration parameters relating to the operating result, shareholders' equity and the net financial position of the Company.

Operating steps

The above activity must be subjected to a complete review and ongoing monitoring during the year by the Risk Manager in close conjunction with those responsible for the process and with the Head of the Internal Audit department.

In practical terms the activity of the Risk Manager in conjunction with those responsible for the process consists of taking the following actions:

- a) Mapping out the company processes and updating them whenever necessary;
- b) Recording both internal and external risks for the individual processes on an annual basis;
- c) Measuring the risks in terms of probability / impact and assessing their effect on the business plans and on the budget;
- d) Analysing factors that can mitigate the risk;
- e) Presenting the results of the activity to the Control and Risk Committee for examination and a preliminary discussion with a view to presenting the same to the Board of Directors.

The above activity is carried out following the methodological guidelines contained in the document "Analysis and assessment of risks" attached to this document, which are inspired by the framework "ERM - enterprise risk management" prepared by the "Committee of Sponsoring Organizations of the Treadway Commission" (COSO report).

Ongoing monitoring

The Risk Manager carries out a constant monitoring activity of the possible consequences of strategic, operating, compliance and reporting risks. He/she defines a series of information flows from the operating functions in order to continually monitor the level of risk. He/she reports back every three months to the Control and Risk Committee and coordinates the work of the risk managers of the subsidiaries, where they exist, in the preparation of a document for assessing and monitoring risk. For the 100% controlled subsidiaries, the analysis and assessment of their risk are managed directly by the Risk Manager of CIR.

Timing for the annual analysis and assessment of risks

By October 31 the Risk Manager meets with the Control and Risk Committee to illustrate the annual risk analysis and assessment of the Company. The Control and Risk Committee analyses the document and goes into more depth where necessary during the following months of November and December to then put the final document before the Board of Directors when they meet to approve the budget in January. .

At the Board of Directors Meeting held on October 29 2012, the Company also adopted *Guidelines for implementing the internal control and risk management System of the companies of the Group*.
