m) Power delegated to increase the share capital and authorization to buy back the Company's own shares (as per Art. 123-bis, paragraph 1, letter m) T.U.F.)

For a period of five years starting from the date on which the resolution approved by the Extraordinary General Meeting of the Shareholders on June 30 2014 is recorded in the Register of Companies, the Board of Directors has the right to increase the share capital either once or more than once by a maximum of Euro 500,000,000 nominal value through the issuance of shares with or without a share premium. These shares will be offered in subscription or will service warrants or the conversion of bond issues including issues made by third parties, both in Italy and abroad, or else they will be assigned free of charge to holders of option rights by allocating to share capital available reserves or provisions on the basis of the latest financial statements approved.

For a period of five years starting from the date on which the resolution approved by the Extraordinary General Meeting of the Shareholders on June 30 2014 is recorded in the Register of Companies, the Board of Directors also has the right to increase the share capital either once or more than once by a maximum of Euro 20,000,000 of nominal value through the issuance of shares to be reserved for subscription by employees of the Company and its subsidiaries and parent companies in accordance with Article 2441, V and last paragraph, of the Civil Code. The same Board shall have the right to fix the price of issuance, which may not be lower than the nominal value of the shares, the requirements for subscription and the limits of the availability of the same shares, as well as the general terms and procedures for the said subscription.

For a period of five years starting from the date on which the resolution approved by the Extraordinary General Meeting of the Shareholders on June 30 2014 is recorded in the Register of Companies, the Board of Directors has the right to issue, once or more than once, even without the option right, and in that case in favour of institutional investors, convertible bonds or bonds with warrants attached, which may also be in a foreign currency, if permitted by law, with a corresponding increase in share capital – with a limit of ten per cent of the share capital existing in the event of the option right not being included – for a maximum amount of Euro 500,000,000. More in general the Board also has the right to define the procedures, terms and conditions of the bond issuance and the rules governing such issuance.

The Annual General Meeting of the Shareholders held on April 28 2017 authorized the buy-back of CIR stock in accordance with and as an effect of Art. 2357 of the Civil Code for a period of eighteen months from the day after that of the AGM resolution, as follows:

- A maximum of 40,000,000 shares each with a nominal value of euro 0.5 can be bought back, bearing in mind that, including in the calculation the own shares already held even through the subsidiaries, the nominal value of the shares bought back may not in any case exceed one fifth of the share capital of CIR S.p.A.;

- The unit price of each single buyback of shares may not be more than 10% higher or lower than the benchmark price recorded by the Company's shares in the Stock Exchange trading session preceding each single purchase transaction or the date on which the price is fixed and in any case, when the buybacks are made in regulated markets, for a price no higher than the higher of the price of the last independent deal and of the current independent bid price in the same market;
- The purchase must take place in the market in compliance with what is set out in Art. 132 of D.Lgs no. 58/98 and in the rules of law and regulations in force at the moment of the transaction and more specifically:
 - a) through a public offering to purchase or exchange shares;
 - b) on regulated markets following the operating procedures established in the rules for the organization and management of those same markets, which do not allow bids and offers to be matched directly;
 - c) through the assignation of put option rights pro rata to the Shareholders, to be assigned within 15 months of the date of the AGM resolution and which shall be exercisable within 18 months of the same resolution;
 - d) through the purchase and sale of derivative instruments traded on regulated markets which involve the physical delivery of the underlying stocks and which comply with the further conditions stipulated in Art. 144-bis of Consob's Rules for Issuers.

As of December 31 2017 138,167,259 own shares were being held as treasury stock.

It should be noted that – on the basis of the AGM resolution of April 28 2017 authorizing the buyback of own shares – as of March 9 2018 140,154,035 own shares had been bought back.

Other information (as per Art. 123-bis, paragraph 2, T.U.F.)

a) Compliance with a code of conduct on the subject of corporate governance.

The Company complies with the Code of Conduct of Borsa Italiana S.p.A. prepared by the Committee for the Corporate Governance of Listed Companies and promoted by Borsa Italiana S.p.A., which is available on the website of the Corporate Governance Committee http://www.borsaitaliana.it/comitato-corporate-governance/codice/2015_clean.pdf.

CIR S.p.A. and its strategically important subsidiaries are not subject to any non-Italian rules of law that affect the structure of the corporate governance of the Issuer.

b) Main characteristics of the existing risk management and internal control systems in relation to the financial disclosure process.

Reference should be made to what is described in point 7) of the Report and in Art. 7 of the attached Code of Conduct of CIR S.p.A. on the System of Internal control and risk management.

c) How the Shareholders' Meeting functions.

Reference should be made to what is described in point 10) of the Report on Shareholders' Meetings and to Art. 9 of the attached Code of Conduct of CIR S.p.A. entitled "Relations with the Shareholders".

d) Composition and functioning of the administrative and control bodies and their committees.

Reference should be made to what is described in the sections of the Report that deal with: the Board of Directors (point 2), the Statutory Auditors (point 8) and the Committees (points 4-5 and 7) and also to the attached Code of Conduct of CIR S.p.A. in Articles 2, 3 and 5 for the Board of Directors, Article 8 for the Statutory Auditors, and Articles 4, 5, 6 and 7 for the Committees.

d-bis) Description of policies on the subject of diversity

Following the entry into force of D.Lgs no. 254/16, which introduced Art. 123-bis of the TUF (letter d-bis of paragraph 2), the Report on Corporate Governance must now "contain a description of policies on the subject of diversity applied in relation to the composition of the administrative, management and control bodies regarding aspects such as age, gender mix and training and professional experience, together with a description of the objectives, methods of implementation and results of such policies. If no such policy is in place, the company must give a clear and structured rationale for its decision".

The Board of Directors of the Company at the meeting held on March 12 2018 (when among other things it approved this Report), confirmed its strategy of not adopting any further policies on the subject of diversity in the composition of boards of directors and boards of statutory auditors, as set out in Art. 123-bis, paragraph 2, letter d-bis of the TUF, given that, without prejudice to the requisites of integrity, professionalism and independence as well as the situations of incompatibility and/or lapses of position laid down by law and by the Company Bylaws:

1. The Company has already adopted in the Bylaws a policy that ensures a balance of genders in the composition of the Board of Directors and the Board of Statutory Auditors;

2. The CIR Code of Conduct (attached to this report) has also been adopted and this in Art. 2 (to which reference should be made) on transposing and implementing the content of the Code of Conduct, gives a clear indication of the composition of the Board, the competences and professionalism of the Directors and the way in which the duties of the position should be carried out;
3. At least once a year the Board already carries out a regular assessment of the size, composition and functioning of the same Board and its committees, taking into account elements such as professional profile, experience, including managerial experience, and gender of its members as well as their seniority. This assessment gives the Board the opportunity to carry out a regular check that the policies referred to in point 2 above are being implemented;
4. The Board can avail itself of the right contained in the same CIR Code of Conduct (Art. 5) to give the Shareholders, before the appointment of a new Board, its opinion on the size and composition of the new Board, taking into account even the assessment described in the previous point, with the aim of guiding the Shareholders, according to their reciprocal duties and prerogatives, in their choices so that they can freely designate the members of the Board of Directors.

While reserving the right to reconsider its position in the future, the Board considered the above factors to be sufficient for the time being to guarantee an adequate structure in terms of diversity in the composition of the Board of Directors, an opinion that is confirmed by the current composition of the Board in the light of the various aspects considered, i.e.: age, gender, experience / seniority, professional competences, training, culture and international dimension. The outcome of the Board Review process for the year 2017 again confirmed the adequacy of the composition of the current Board in terms of diversity (*latu sensu*) and the fact that the same Board as a whole has a balanced mix of experience and competences that are adequate and in line with the future needs of the Company.

1) Role of the Board of Directors

For the information of a general nature regarding the Role of the Board of Directors, reference should be made to what is indicated in Art. 1 of the “Code of Conduct of CIR S.p.A.”

As of the date of this Report the Board of Directors has carried out, among other things, the following activities:

- On the basis of the internal procedures approved by the Board of Directors on October 29 2012, it examined and approved the strategic and financial plans of the

Company and also examined the consolidated strategic, business and financial plans of the subsidiaries at the head of the groups in the various business sectors as presented by their respective Chief Executive Officers, assessing whether these plans were consistent with those of the issuer and periodically monitoring their implementation;

- Defined the nature and level of risk compatible with the strategic objectives of the Company;

- Evaluated the adequacy of the organizational, administrative and accounting structure of the Company, with particular reference to the system of internal control and risk management;

- Defined how often, generally every three months, the Chief Executive Officer must refer back to the Board on the activity carried out in the exercise of the powers assigned to him or her;

- Assessed the performance of operations specifically taking into account the information received from the Chief Executive Officer of the Company and from the Chief Executives of the main subsidiaries, analysing the businesses and the evolution of the economic and patrimonial situation of the Company and of the Group;

- Examined and gave prior approval to transactions put in place by the Company and examined those of the subsidiaries that have significant strategic importance. To this end at the Board of Directors Meeting of October 29 2012 the Company defined its parameters for measuring significance, adopting a special procedure;

- Carried out an assessment of the size, composition and functioning of the Board of Directors and of its committees, taking into account elements such as the professional characteristics, experience, even managerial experience, and the gender of its members as well as how long they have held their positions. The assessment process was carried out following a practice already adopted by the Company, which involves the Directors filling out a questionnaire for 2017 that was prepared in house. The questionnaire consists of specific questions regarding among other things: the adequacy of the number of Board members and how the Board and the Committees are made up, the type of professional profiles present on the Board, how Board and Committee meetings take place and also the relative flows of information and documents and the decision-making procedures followed. The results of the self-assessment were illustrated to the Board of Directors by the Lead Independent Director, after they had been examined by the Control and Risk Committee, and the outcome was a positive evaluation overall;

- Examined the results of the self-assessment process regarding the size and composition of the Board, noting that the parameters were considered adequate by the outgoing Board with regard to the needs of the Company and that the Board members' varied professional knowledge and the level of their competence from the managerial viewpoint was entirely satisfactory. New appointments are made with a view to maintaining overall continuity both in terms of size and of professionalism;

- Ensured the management internally and the disclosure externally of documents and information regarding the Company, with particular reference to privileged

information, in accordance with the terms of the procedure adopted by the Board of Directors.

Regarding the other activities of the Board of Directors on the subject of the “Control and risk system”, reference should be made to paragraph 7) “System of internal control and risk management.”

Article 1 of the Code of Conduct of CIR S.p.A., annexed to this document, gives guidelines on the subject of the maximum number of positions of Director or Statutory Auditor approved by the Board of Directors on October 29 2012, specifying certain limits as to the number of positions that can be held by executive and non-executive Directors of CIR in Significant Companies, as defined by the same Board.

On April 28 2017 the Board of Directors appointed Mr Rodolfo De Benedetti as Chairman of the Company and Ms Monica Mondardini as Chief Executive Officer.

Division of Duties

Duties of the Chairman

The Chairman, in addition to representing the Company externally with third parties, whether public or private entities, with the power to sign any document, deed, legal document or correspondence in the name of and on behalf of the Company and with the right to appoint others to take his place with more limited powers, and in addition to the duties prescribed for this position by the Company Bylaws and by the provisions of the Code of Conduct of the Company (e.g. duties on the subject of providing information before Board Meetings, induction programs, collaborating with the Lead Independent Director) and without prejudice to the powers reserved exclusively to the Board of Directors and to the Chief Executive Officer, is assigned competence for the following:

1. Definition of proposals to put before the Board of Directors regarding the strategic guidelines of the Group and supervision of the implementation of the same; for this purpose the discussion by the Board of Directors will take place once a year, for example when the budget for the year or the multiyear business plan is discussed.
2. Adopting resolutions on the following extraordinary transactions:
 - Investments and/or disinvestments in companies/businesses/business arms up to a maximum amount of Euro 75 million provided that these do not involve the loss of control of the strategic investees of the Group (currently Media, Utilities, Automotive Components and Healthcare); transactions for an amount higher than this are the exclusive competence of the Board of Directors; it should be noted that for such transactions, the Chief Executive Officer shall have competence for unit values of up to Euro 25 million;

- Financial investments and/or disinvestments for trading and/or for the short-term investment of liquidity up to a unit value of Euro 150 million; transactions over this amount are the exclusive competence of the Board of Directors; it should be noted that for these transactions the Chief Executive Officer shall also have competence for unit values of up to Euro 75 million;

3. Managing activities pertaining to external relations and communication of the Company and of the Group and to institutional relations with investors, authorities, public sector entities, companies and organizations and private sector entities, companies and organizations.

Duties of the Chief Executive Officer

The Chief Executive Officer is responsible for the execution of the resolutions of the Board of Directors and/or the Chairman for areas of his competence, and is the main person responsible for managing the business. The Chief Executive Officer (CEO) is responsible, among other things, for the following:

1. Managing the Company CIR S.p.A. in relation to its typical business as a holding company of equity investments, including:

- the use of financial resources within the sphere of the powers assigned (i) investments and/or disinvestments in companies/businesses/business arms up to a maximum amount of Euro 25 million, provided that these do not involve the loss of control of the strategic investees of the Group (currently Media, Utilities, Automotive Components and Healthcare); (ii) financial investments and/or disinvestments for trading and/or the short-term investment of liquidity up to a unit value of Euro 75 million;

- The Chief Executive Officer has the exclusive right to select and designate the chairman of the strategic investee companies (i.e. the companies that CIR S.p.A. controls by right), it remaining understood that the Chief Executive

- The Chief Executive Officer jointly with the Chairman has the right to select and designate independent directors for the strategic investee companies and to select the chairman of GEDI Gruppo Editoriale S.p.A. (other than the present chairman).

The Chief Executive Officer will keep the Chairman regularly informed, even in the role of representative of the Shareholders, on the performance of the operations of the CIR Group and this will be through a monthly meeting to illustrate the management accounts of CIR S.p.A. and its strategic subsidiaries and any other significant operating facts and weekly updates, and will refer back at least once every three months to the Board of Directors.

The Chief Executive Officer is assigned all the powers of the Board of Directors that are not reserved to the exclusive competence of the same Board of Directors or its Chairman by the law, the Company Bylaws or the Code of Conduct or those that reside with the General Manager.

Consequently, on April 28 2017 the Board of Directors of the Company assigned the following powers:

- The Chairman, Mr Rodolfo De Benedetti, is assigned:
 - (i) the legal representation of the Company and with it the power with his sole signature to represent the Company with third parties, whether public or private, before any judicial or administrative authority, the power in his role as above to sign any document, deed, legal instrument and correspondence in the name of and on behalf of the Company, all of which without prejudice to the powers residing exclusively with the Chief Executive Officer and with the right to appoint others to take his place with more limited powers, and to delegate others for certain actions or categories of actions;

- The Chief Executive Officer, Ms Monica Mondardini, is assigned the following powers:

 - any financial investment and/or disinvestment for trading purposes for the short-term investment of liquidity, the unit value of which is equal to or lower than Euro 75 million;

- nature – which are not included in those assigned to the General Manager as stipulated below;

 - (iv) the power to appoint others to take her place with more limited powers, appointing people with power of attorney for certain deeds or categories of deeds.

The Board of Directors Meeting held on June 30 2014 also gave Ms Monica Mondardini, in her role as General Manager, powers of ordinary administration to be exercised with her sole signature.

2) Composition and functioning of the Board of Directors (as per Art. 123-bis, paragraph 2, letter d) of the T.U.F.)

For the rules of a general nature regarding the composition and functioning of the Board of Directors, reference should be made to what is indicated in Art. 2 of the Code of Conduct of CIR S.p.A., attached to this document, as well as to what is stated in Art. 1 of the same regarding the functions carried out by the Chairman. It should be remembered that the mandate of the Board of Directors currently in office will end with the approval of the Financial Statements for the year ended December 31 2019.

At the time of their appointment all the Directors filed declarations in which they attested that there were no reasons why they should not be elected, that there were no incompatibilities as per the law and that they possessed the requisites of integrity and professionalism required by current law and by the Company Bylaws. The Directors were all drawn from the sole list filed, presented by the shareholder COFIDE S.p.A., owner – as of the date of the AGM – of a percentage of the capital equal to 45.798%.

The Board therefore consists of eleven Directors, two of whom have executive status (the Chairman and the Chief Executive Officer), while nine are non-executive.

In consideration of their number and their authority, the non-executive Directors provide a guarantee that their judgment shall have significant weight in the resolutions adopted by the Board; they each bring their own individual expertise to Board debates and contribute to the adoption of decisions in the interest of the Company. The “Independent Directors” make up the majority of the Board.

The composition of the Board of Directors of the Company is therefore appropriate to guarantee sufficient conditions of operational independence, aimed at maximizing the economic and financial objectives of the Company.

The chart below shows the composition of the Board of Directors:

The Board of Directors checks and publishes annually the positions of Director or Statutory Auditor held by Directors in other listed companies, financial companies, banks, insurance companies or in other non-listed companies of a significant size (Attachment A). It should be noted that the personal and professional profiles of each Director can be found in the document attached to this report.

During 2017 the Board of Directors met six times. On average, the meetings lasted for approximately two hours. For the year 2018, six meetings have been scheduled, two of which had already taken place as of the date of this report. The Executive responsible for the preparation of the financial statements and corporate documents, Mr Giuseppe Gianoglio, and Mr Michele Cavigioli, Central Finance and Investor Relations Director, regularly attend Board of Directors Meetings.

On the subject of passing information to the Board, in accordance with what is set out in the Code of Conduct of Borsa Italiana S.p.A., the Chief Executive Officer reports back regularly (at least every three months) to the Board and at the same time to the Board of Statutory Auditors on the action taken in the exercise of the powers assigned to him or her.

The Chief Executive Officer also provides adequate information (at least every three months) on any atypical or unusual transactions, to the Board of Directors and the Board of Statutory Auditors.

The following chart shows the composition of the Committees set up by the Board: the Appointments and Compensation Committee, the Control and Risk Committee and the Committee for Related Party Transactions, the members of which are the same as those of the Control and Risk Committee.

In accordance with the terms of the Code of Conduct of Borsa Italiana S.p.A., on April 28 2017 the Board of Directors appointed as *Lead Independent Director* Mr Guido Tabellini to whom all the non-executive directors can refer (especially the independent ones) to enable them to make a better contribution to the activity and the running of the Board.

The *Lead Independent Director* collaborates with the Chairman to guarantee that the Directors receive full information flows on a timely basis. Among other things the *Lead Independent Director*, either independently or at the request of other directors, also has the right to call a meeting of just the independent directors to discuss topics considered of interest to the running of the Board of Directors or the management of the Company.

Regarding induction programs and in relation to regulatory requirements on the subject, a special briefing session was organized for Directors and Statutory Auditors with the assistance of external consultants. The invitations to the induction session were sent out in plenty of time so that as many people as possible

were able to attend. The session was held on June 5 2017, with the proceedings occupying most of the day. The presentations were on the following topics “*Market Abuse Regulation*” and “*Sustainability in the CIR Group and the new legal obligations*” and were followed by a lively debate, which was an opportunity to examine the individual aspects of the matters dealt with in greater detail.

3) Independent Directors

Art. 3 of the attached Code of Conduct of CIR S.p.A. gives the requisites on the basis of which the Company – in accordance with what is recommended by the Code of Conduct of Borsa Italiana S.p.A. and what is stipulated in Art. 147-ter paragraph 4 of the T.U.F. – considers Directors independent.

The Board of Directors Meeting held at the end of the Shareholders’ Meeting on April 28 2017 checked the existence of the requisites of independence set out in the Code. Furthermore, and in waiver of the terms set out in the Code of Conduct for Listed Companies (See Application criterion 3.C.1, letter e), it also gave a positive opinion on the independence of Directors Claudio Recchi and Guido Tabellini, in spite of the fact that they have been Directors of the Company for more than nine of the last twelve years, given that they have always demonstrated full independence of judgement and have appreciated the work of management freely.

In 2017 the Board of Statutory Auditors verified that the criteria and checking procedures adopted by the Board of Directors to assess the independence of its members were being applied correctly.

During 2017 the Independent Directors met – without the other Directors – on January 30 2017 to assess the quality of management and the transparency of the information given to the Board of Directors and to examine the results of the self-assessment of the Board prepared by the Control and Risk Committee.

4) The institution and the functioning of the internal committees of the Board of Directors (as per Art. 123-bis, paragraph 2, letter d) T.U.F.)

The principles underpinning the institution and functioning of the internal committees set up by the Board of Directors are given in Art. 4 of the attached Code of Conduct of CIR S.p.A.

As permitted by the Code of Conduct of Borsa Italiana S.p.A., the Company has merged the functions of the Appointments Committee and of the Compensation Committee into one single committee, whose members include profiles with adequate competence in finance or compensation policy and which is known as the Appointments and Compensation Committee. The Internal Control Committee set up by the Board of Directors on May 4 2000 has taken the name of Control and Risk Committee and at least one of its members has adequate experience in accounting and finance or risk management. This Committee also carries out the

functions of the Committee for related-party Transactions in compliance with the Rules for related-party Transaction. The Appointments and Compensation Committee and the Control and Risk Committee operate according to the respective rules that they have adopted.

5) Appointment of Directors (as per Art. 123-bis, paragraph 1, letter l) and paragraph 2, letter d) T.U.F.)

As stated in letter e) of the section of the Report entitled “Information on the ownership structure for the appointment of Directors”, reference should be made to the information given in Art. 5 of the attached Code of Conduct of CIR S.p.A. and to the articles of the Company Bylaws reproduced therein.

The Appointments and Compensation Committee consists of Independent Directors: Mr Philippe Bertherat, Ms Patrizia Grieco, Mr Claudio Recchi and Mr Guido Tabellini (Chairman of the Committee).

On the subject of the appointment of Directors, the Appointments and Compensation Committee carries out the functions detailed in Article 6 of the attached Code of Conduct of CIR S.p.A.

6) Remuneration of Directors (as per Art. 123-bis, paragraph 1, letter i) T.U.F.)

The guidelines of the Company’s compensation policy are described in Art. 6 of the attached Code of Conduct of CIR S.p.A.: specifically, the compensation policy is determined following criteria that are appropriate for attracting, retaining and motivating people with adequate professional qualities to manage the Group effectively. The compensation assigned to the Chairman of the Board of Directors, as an Executive Director, and to the non-executive Directors for being on one or more committees, is determined as a fixed fee based on the commitment required of each of them. The Appointments and Compensation Committee carries out the functions on this subject as specified in detail in the above-cited Art. 6 of the Code of Conduct of CIR S.p.A.

The compensation paid in 2017 to the Directors and Executives with strategic responsibilities is shown in the charts attached to the “Compensation Report prepared in compliance with Art. 84-*quarter* of Consob Resolution 11971/99, approved by the Board of Directors on March 12 2018 and made available to the Annual General Meeting of the Shareholders convened to approve the Financial Statements for the year ended December 31 2017.

The Committee met twice in 2017 and minutes of the meetings were taken as is standard practice. The meetings lasted on average for approximately one hour.

For the year 2017 the Shareholders’ Meeting held on April 28 2017 approved the assignation of Stock Grant Plans (respecting the terms and conditions described in the Information Document, prepared in compliance with Consob Regulation no.

11971/99) in accordance with principles which substantially reflect the provisions of Article 6 of the Code of Conduct, particularly in relation to the following:

- An average vesting period of 3 years
- Vesting of part of the shares assigned linked to the achievement of certain performances (trend of the stock)
- Minimum holding for an average of 2 years in addition to the 3 years of vesting for a percentage of the shares assigned.

The Information Document can be consulted on the Company's website in the section "Governance".

7) System of Internal Control and Risk Management (as per Art. 123-bis, paragraph 2, letters b and d) T.U.F.)

The system of internal control is the body of rules, procedures and organizational structures that enable the main risks to be identified, measured, managed and monitored.

The aims of the Control and Risk System, and the bodies and functions responsible are detailed in Art. 7 of the attached Code of Conduct of CIR S.p.A.

Within the sphere of the Control and Risk System, during the year 2017 the Board of Directors:

- a) Identified the nature and level of risk compatible with the strategic objectives;
- b) Evaluated the adequacy, effectiveness and efficiency of the System of Control and Risk in relation to the business and the risk profile assumed, taking also into account the assessments made by the Director Responsible and by the Control and Risk Committee;
- c) Approved, at the proposal of the Control and Risk Committee, the Audit Plan, after hearing the opinion of the Board of Statutory Auditors and the Director Responsible;
- d) On the basis of the resolution adopted by the Board of Directors on March 20 2001, the Chief Executive Officer is the executive director responsible for ensuring that the internal control system works effectively and that it is adequate. He or she does this partly by defining procedures that will guarantee sound and efficient management and also by identifying, pre-empting and managing, as far as possible, any financial and operational risk and any fraud against the Company, availing himself of the assistance of the Control and Risk Committee.

The Board of Directors with its resolution adopted on May 4 2000 set up the Internal Control Committee (now the Control and Risk Committee), which was given the function of preparing proposals and acting in a consulting capacity and which acts along the lines set out in the Code of Conduct.

The Chairman of the Board of Statutory Auditors or another Statutory Auditor designated by the Chairman attends the Committee meetings.

The Members of the Control and Risk and Committee are Independent Directors: Maristella Botticini, Silvia Giannini (Chairman of the Committee) and Claudio

Recchi. It should be noted that the Board of Directors on January 28 2013 appointed Mr Giuseppe Gianoglio as the Executive responsible for the preparation of the financial statements and corporate documents. On March 11 2013 the Board of Directors appointed Mr Andrea Bergaglio as head of the Internal Auditing function.

During 2017 the Committee held five meetings which lasted for an average of about two hours. Minutes of the meetings were taken regularly.

8) Statutory Auditors (as per Art. 123-bis, paragraph 2, letter d) T.U.F.)

The appointment of the Statutory Auditors and the functioning of the Board of Statutory Auditors are regulated by Art. 19 of the Company Bylaws which is reproduced in Art. 8 of the Code of Conduct of CIR S.p.A.

The Statutory Auditors are selected from persons who can be qualified as independent following the criteria applied to the Directors. During 2017 the Board of Statutory Auditors checked that the above criteria were being complied with, ensuring that the results of this check were shown in this report.

In waiver of what is established by the Code of Conduct for Listed Companies (see Application criterion 3.C.1, letter e), the Board of Statutory Auditors rated the independence of its members positively, even considering the length of time that they have been in office. Judging substance as more important than form, it assessed from a practical viewpoint the actual relations in place between the members and the Company and the way in which the former have carried out their duties. They have in fact always been fully independent and able to judge and appreciate the work of management freely, on the basis of the experience they have gained in the ongoing relationship with the Company.

The Board of Statutory Auditors currently in office will terminate its mandate with the approval of the Financial Statements as of December 31 2019 and is made up as follows:

<i>Name</i>	<i>Position</i>	<i>Year of birth</i>	<i>In office since</i>	<i>In office until</i>	<i>List</i>	<i>Independent as per Code of Conduct</i>	<i>% attendance at meetings of B. of S.A.</i>	<i>Other positions</i>	<i>Date first appointed</i>

During the year 2017 the Board of Statutory Auditors met ten times and the meetings lasted on average two hours.

At the time of their appointment all the Statutory Auditors filed declarations in which they attested that there were no reasons why they should not be elected, that there were no incompatibilities as per the law and that they possessed the requisites of integrity and professionalism required by current law and by the Company Bylaws.

It should be noted that the personal and professional profiles of each Statutory Auditor are given in the attachment to this report.

The Statutory Auditors were drawn from the sole list presented by the majority shareholder COFIDE S.p.A. owner – as of the date of the AGM – of 45.798% of the capital.

9) Relations with the Shareholders

The Company has always endeavoured to establish and maintain an effective dialogue with its Shareholders and with the market, using various forms of communication including, for example, the following: presenting the results of the Company and the Group during Shareholders' Meetings using slides, meeting with financial analysts and institutional investors in Italy and abroad, informing the public by making the corporate governance documents required by law, press releases and presentations available on the website of the Company.

The Company also adheres to the principles of the Guide for Disclosing Information to the Market.

To this end, the Chief Executive Officer appointed the Central Finance Director, Mr Michele Cavigioli, to be in charge of the Investor Relations function, to manage the flow of information to Shareholders, financial analysts and institutional investors, in compliance with the rules established for the disclosure of the Company's information and documents.

10) Shareholders' Meetings (as per Art. 123-bis, paragraph 2, letter c) T.U.F.)

It has always been the policy of the Company to use the Shareholders' Meeting as an opportunity to give the Shareholders information about the Company and the Group and their prospects for the future, while complying with the procedure concerning price-sensitive information.

All the Directors and Statutory Auditors endeavour to be present at Shareholders' Meetings as far as possible but particularly those Directors who can make a positive contribution to the debate in view of the positions that they hold.

The procedures and timing for calling Shareholders' Meetings are regulated by Art. 15 of the Company Bylaws, which is reproduced in the attached Code of Conduct of CIR S.p.A.

The Shareholders' Meeting held on April 27 2001, in accordance with the terms of the Code of Conduct of Borsa Italiana S.p.A., approved and subsequently updated a set of Regulations for conducting Shareholders' Meetings, which can be consulted on the internet website of the Company in the section "Governance".

The Board of Directors makes available to the Shareholders a booklet containing the items on the Agenda of the Shareholders' Meeting within the time frame laid down by law.

11) Code of Ethics

On March 7 2003 the Board of Directors approved the CODE OF ETHICS OF THE CIR GROUP, with the aim of defining in a clear and transparent way the code of values underpinning the action of the Group in the pursuit of its objectives and establishing principles of conduct which are binding for directors, employees and other individuals who maintain relations with the Group.

The text of the CODE OF ETHICS can be consulted on the Company's website in the section "Governance".

12) Sustainability Report

The Sustainability Report of the CIR group for the year 2017 was prepared in accordance with the "G4 Sustainability Reporting Guidelines" published in May 2013 by the GRI (Global Reporting Initiative). The Sustainability Report is the main instrument for reporting the performance obtained by the group in the economic, social and environmental sphere and for highlighting its commitment to conducting its business with the aim of creating value not only for the organization but also for its stakeholders.

The process of collecting data and information for the purpose of the preparation of the Report was managed collaboratively with the various departments of the companies that make up the CIR group, with the aim of giving a clear and precise indication of the information considered significant for the stakeholders according to the principles of balance, comparability, accuracy, timeliness, clarity and reliability, as expressed in the GRI guidelines.

13) Institution of a Supervisory Body and application of the organizational and operational model provided for by D.Lgs. 231/2001 (as per Art. 123-bis, paragraph 2, letter a) T.U.F.)

Legislative Decree no. 231/2001 containing the "Discipline regulating the administrative liability of legal entities, companies and associations without legal status, pursuant to Article 11 of Law no. 300 of September 29 2000" and

subsequent amendments and additions, introduced the criminal liability of entities for any fraudulent acts committed by people with a special functional relationship with the Company, where the alleged misdeed was carried out in the interest or to the advantage of the same Company; this liability was, among other things, extended by D.Lgs no. 61/2002 to cover corporate offences too.

The decree provides that exemption for the company from such liability is possible provided that it can be demonstrated that the company had adopted and effectively put in place organizational models for the prevention of criminal offences and that it had given the task of monitoring the correct functioning of such models and making sure that they are fully updated to a controlling body equipped with independent powers to take the initiative and to carry out a control function.

To this end, after approving the Code of Ethics, the Board of Directors then set up the Supervisory Body on April 30 2003. On September 5 2003 the Board of Directors also approved the “*Organizational Model*”, which was subsequently supplemented following the broadening of the scope of the law contained in D.Lgs. 231/2001.

The members of the Supervisory Body are external lawyers Giuseppe Bianchi and Andrea Gottardo, and Mr Andrea Bergalio.

During 2017 the Supervisory Body met five times and minutes were taken in line with standard practice.

The Supervisory Body of CIR S.p.A. monitored the functioning and observance of the Organization, Management and Control Model adopted by the Company, checking its effectiveness and evaluating any possible proposals for updating it.

14) Firm of Auditors

With the approval of the Financial Statements for the year ended December 31 2016 the legal audit mandate awarded by CIR S.p.A. to the company Deloitte&Touche S.p.A. for the period 2008-2016 came to an end.

In order to manage the period of transition to the new auditor in the best way, it was decided to award the legal audit mandate a year before its natural maturity. The AGM held on April 29 2016 therefore resolved to give the legal audit mandate for the years 2017-2025 to the firm of auditors KPMG S.p.A.

15) Management and coordination activity

The Company is subject to management and coordination by its controlling company COFIDE S.p.A., as per the terms of Art. 2497 and following articles of the Civil Code.

CODE OF CONDUCT OF CIR S.p.A.

FOREWORD

The Code of Conduct of CIR S.p.A. (hereinafter "CIR" or the "Company") contains a description of the main duties and functions of the corporate bodies of the Company and of the internal control and risk management structure of the Company.

The description of these duties and functions is carried out in a structured way in a single document in which it is possible even to find not only content but also specific reference to the applicable regulatory environment: the provisions of the law and of regulations, the terms of the Company Bylaws, and the principles of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. with which the Company complies.

On this subject at the Board of Directors Meeting held on October 29 2012, following the new rules of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. introduced in December 2011, the Company updated its own corporate governance and approved internal procedures as indicated in the Code.

In order to incorporate the changes introduced in the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. in July 2014 and July 2015, the Board of Directors has subsequently updated the Code of Conduct of the Company.

Art. 1 – Role of the Board of Directors

Below are the provisions of the **Company Bylaws** on the subject of **the role of the Board of Directors**

ARTICLE 10

1. The Board of Directors is invested with broad powers for the administration of the Company. It can carry out any action considered appropriate for achieving the objective of the Company, whether such action pertains to ordinary or extraordinary administration, with no exclusions or exceptions, apart from that which the law and these Bylaws have established as mandatory for the Shareholders' Meeting.
2. The Board of Directors can therefore adopt resolutions approving a reduction of the share capital of the Company in the event of the withdrawal of Shareholders, amending the Bylaws to bring them into line with new regulations, moving the Company headquarters anywhere in the country and also approving the merger by incorporation of either a fully owned subsidiary or a subsidiary in which it holds a stake of at least 90%, all in compliance with the provisions of Articles 2505 and 2505-bis of the Civil Code.
3. The Board of Directors can, within the limits of the law, delegate its powers, establishing the content and the limits of any such mandate, to an Executive Committee comprising some of its members, or to one or more of its members, possibly giving them the title of *Amministratori Delegati* (Chief Executive Officers/Managing Directors) and giving them the right to sign on behalf of the Company either individually or jointly. In order for the resolutions adopted by the Executive Committee to be valid, an absolute majority of its members must be present and must cast their vote in favour.
4. The Board may also appoint General Managers, subject to first checking that they possess the requisites of integrity stipulated by law, who may even be members of the Board. A lack of the requisites of integrity will mean that they will lose their position.
5. The Board can also appoint Officers with individual or joint signatures, establishing their powers and functions. It may also award mandates in general for certain actions or categories of actions.
6. The appointment of the Directors, Deputy Directors and Officers with the determination of their respective emoluments and functions can also be passed on by the Board to the Chairman or anyone acting for the Chairman, to the Managing Directors and to the General Managers.
7. The Board can set up from within its number committees with the function of consulting and making proposals, determining the scope of their activity and their powers.
8. The Board of Directors, at the proposal of the Chief Executive Officer and in agreement with the Chairman, subject to the favourable opinion of the Board of Statutory Auditors, shall appoint the officer responsible for the preparation

of the company financial statements, who must have adequate experience on the subject of accounting and finance.

9. The Board of Directors also monitors that the officer appointed to prepare the financial statements of the Company has sufficient powers and means to carry out the duties assigned to him and that the administrative and accounting procedures are actually being complied with.

ARTICLE 12

1. The Board shall meet when convened by the Chairman or whoever is taking his place, as a rule every three months and any time that the interests of the Company make it necessary, including at the request of two Directors.
2. The Board of Directors shall also meet when a meeting is called as per Art. 20 of these Bylaws.
3. The Meeting is called by registered letter, telegram, fax or e-mail which must be received at least five days before the date fixed for the meeting or, in cases of urgency, at least the day before.
4. The meetings of the Board and its resolutions are valid, even when the meeting has not been formally convened, when the majority of the Directors in office and the Statutory Auditors are present even by telephone- or video-conference call, all those who have a right to attend have been notified in advance of the meeting and the participants are sufficiently informed on the topics to be dealt with.
5. The Meetings of the Board of Directors are chaired by the Chairman or, should the Chairman be absent, by one of the Deputy Chairmen or should there be no Deputy Chairmen by a Director designated by the Board.
6. In order for the Board resolutions to be valid and binding the majority of the Directors in office must be present.
7. Resolutions are taken with an absolute majority of the votes of those present and in accordance with the Rules for Related Party Transactions. If the votes for and against are equal then the Chairman or whoever is taking his place casts his vote which is decisive.
8. Board resolutions are set out in writing in the minutes which are signed by the person chairing the meeting and by the Secretary.
9. Meetings of the Board of Directors can be held by video - or telephone-conference call on the condition that all the participants can be identified, that they are able to follow the discussion and intervene in real time on the items being treated and that they are in a position to receive, transmit and view documents. Once these conditions have been verified, the Board is considered as being held in the place where the Chairman is actually located.
10. When the minutes are not drawn up by a Notary, they are prepared by the Secretary and signed by the Chairman and the Secretary without delay.

ARTICLE 13

The Directors must report back to the Board of Directors and to the Board of Statutory Auditors on activities carried out and on anything else required by law at regular intervals at least once every three months when Board Meetings are held or whenever particular timing needs make it desirable. This report shall be made directly, in writing, or verbally and/or by telephone

Given the specific characteristics of the sectors that the CIR investee companies belong to, in application of the terms of Art. 1 of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A., the Board of Directors:

The procedures stipulate that the business plans and the budgets prepared by each company of the group should be the subject of discussion between the Chief Executive of the latter and the Chief Executive of CIR. The Chief Executive of CIR examines and evaluates the business plans and budgets of the companies of the group with the involvement and the support of the management of the parent company, availing him/herself, when there are elements of strong impact for CIR, of the contribution of the Chairman of the Control and Risk Committee and in any case keeping the Chairman of the Board of Directors informed. The Company carries out a global risk assessment every year when the budget is approved;
- Evaluates the adequacy of the organizational, administrative and accounting structure of the Company with particular reference to the system of internal control and risk management;
- Acknowledges, possibly even with a resolution of its own on the subject, what the Chief Executive Officer reports back to the Board on the activity carried out in the exercise of the powers assigned to him/her with the frequency established in the Company Bylaws;

and the evolution of the economic and patrimonial situation of the Company and of the Group;

- Carries out generally once a year an assessment of the size, composition and functioning of the Board of Directors itself and of its committees, taking into account elements such as the professional characteristics, experience, even managerial experience, and the gender of its members as well as how long they have held their positions

Guidance regarding the maximum number of positions as director or statutory auditor in other companies listed on regulated markets, including foreign markets, in financial companies, banks, insurance companies or companies of a significant size ("Significant Companies"):

a) General criteria for evaluation

1. Exclude the possibility that an executive director of CIR can take on other positions as executive director or statutory auditor in Significant Companies not belonging to the CIR group or that of its parents

- companies;

While the terms of Art. 147-ter, paragraph 4, of the Finance Consolidation Act (T.U.F.) remain applicable, the Company intends to introduce the obligation for any Director who has lost the qualification of independence as per the terms of the Code of Conduct (Criterion 3.C.1) to resign his or her position, without prejudice for the right of the Board of Directors to evaluate each specific case possibly allowing waivers to the rules.

Information will be given of any waivers of the above approved by the Board of Directors in the Annual Report on Corporate Governance.

Below is what the **Company Bylaws** stipulate on the subject of the **Chairman of the Board of Directors**

ARTICLE 11

The Chairman of the Board of Directors is the legal representative of the Company. Legal representation is also entrusted to the Deputy Chairmen, to the Managing Directors/Chief Executive Officers and to the General Managers and to anyone else designated by the Board of Directors, severally within the limits of the powers assigned to them individually, or otherwise jointly with another individual also having joint powers.

In application of what is stated in Art. 1 of the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. the Chairman of the Board of Directors:

- convenes meetings of the Board of Directors and makes sure that all the members of the Board and the Statutory Auditors receive, at least three days before the meeting (except in cases of necessity or urgency), all the documentation and information necessary to enable them to express their opinion in a knowledgeable way on the topics submitted for examination and approval. If the documentation is voluminous or complex, it can be supplemented with a summary document and, when there are directors whose language is not Italian, the documents for the meetings are also prepared in English; in specific cases when it is not possible to provide the necessary information with sufficient time before the meeting, the Chairman ensures that adequate and precise explanations are given during the Board meetings;
- coordinates the activity of the Board of Directors and directs the proceedings at its meetings, ensuring that the items on the agenda receive sufficient time necessary for a debate and encouraging the directors to make their contribution;
- ensures that the Directors and Statutory Auditors, after their appointment and during their mandate, can attend initiatives in the most appropriate formats, that will give them adequate knowledge of the business sector in which the issuer operates, of the dynamics of the Company and their evolution, of the principles of correct risk management, as well as of the regulatory environment and the internal rules on the subject;
- can ask the Chief Executive Officer, even at the request of one or more directors, for executives of the Company and of the companies of the group to be present at Board meetings to explain items in greater detail.

Art. 2 – Composition of the Board of Directors

The Board of Directors is made up of executive and non-executive Directors who have adequate competence and professionalism.

The non-executive Directors bring their specific competences to the Board discussions, contributing to the adoption of judicious decisions and paying particular attention to the areas in which conflicts of interest can emerge.

The composition of the Board of Directors of the Company – even in relation to number, competence, authoritativeness and availability of time that the non-

executive Directors have – must be suitable to guarantee conditions of managerial autonomy, directed towards the maximization of the economic and financial objectives of CIR. The composition of the Board of Directors also respects the balance between the genders prescribed by current legislation and by Art. 8 of the Company Bylaws reproduced further on.

The Company complies with the so called ban on interlocking directorates, which was introduced by Art. 2.C.5 of the Code of Conduct of Borsa Italiana S.p.A., i.e. the principle that the chief executive officer of an issuer cannot take a position as director of another issuer not belonging to the same group, in which a director of the issuer is chief executive officer. The Directors are expected to know their duties and the responsibilities inherent in the position.

The Chairman makes sure that the Directors and Statutory Auditors, following their appointment and during their mandate, can take part in initiatives in the most appropriate formats, aimed at giving them an adequate knowledge of the business sector in which the Company operates, of the Company dynamics and the evolution thereof, of the principles of correct risk management, as well as of the regulatory environment and the internal rules on the subject. As far as information on the business sectors is concerned, each executive Director gives a briefing on the performance of the business at the meetings of the Board of Directors on an ongoing basis and in a more extended form at least once a year.

In relation to the regulatory environment, special information sessions may be organized for the Directors with the support of professional training experts when the Board of Directors is renewed and, subsequently, any time that changes in the regulatory framework make an update on the subject appropriate.

The Board of Directors designates a lead independent director. The Lead Independent Director is a point of reference who coordinates the requests and the contributions of the non-executive Directors, particularly the independent Directors. He or she collaborates with the Chairman to guarantee that the Directors receive full information flows on a timely basis. Among other things the Lead Independent Director, either independently or at the request of other Directors, also has the right to call a meeting of just the independent Directors to discuss topics considered of interest to the running of the Board of Directors or the management of the Company.

Regarding the possibility that issuers adopt mechanisms ensuring different maturities of all or some of the members of the administrative body (a staggered board), the Company did not deem it necessary to adopt this measure as it is not appropriate given the ownership structure of CIR.

Art. 3 – Independent Directors

In compliance with the Markets Regulations adopted by Consob, the Independent Directors make up the majority of the members of the Board of Directors.

In accordance with what is recommended by the CODE OF CONDUCT OF BORSA ITALIANA S.P.A. “Independent Directors” are considered as those directors:

- a) who do not either directly or indirectly, even through subsidiaries, fiduciaries or any third persons, control the Company, and who are not able to exert a significant influence on it, and who have not entered into a shareholder pact through which one or more persons may exercise control or a significant influence on the company;
- b) who do not hold or have not held in the previous three years an important position in the Company, in one of its subsidiaries of strategic importance or in a company subject to the joint control of the Company, or in a company or an entity which, with others through a shareholder agreement, controls the Company or is able to exercise considerable influence over the same;
- c) who do not have or have not had in the previous year a significant commercial, financial or professional relationship either directly or indirectly (for example through subsidiaries or companies in which they have a significant role either as partner of a professional firm or of a consulting company) with:
 - the Company, one of its subsidiaries or with any persons of significant status in the same;
 - with a person or entity who even with others through a shareholder agreement, controls the Company or – where companies or entities are involved – with any persons who have a significant status in them;
 or who are not, or have not been in the previous three years, employees of one of the above entities;
- d) who do not receive, or have not received in the previous three financial years, from the Company or from one of its subsidiaries or parent companies any significant remuneration in addition to their “fixed” fee as non-executive Directors of the Company, and the fee for being on the committees recommended by the Code of Conduct for listed companies, even in the form of participation in performance-related incentive plans even those involving shares;
- e) who have not been Directors of the Company for more than nine of the last twelve years;
- f) who do not hold the position of executive Director in another company in which an executive Director of the Company holds the position of director;
- g) who are not shareholders or Directors of companies or of an entity belonging to the network of the company awarded the legal audit mandate by the Company;
- h) who are not close family members of a person who is in one of the situations specified in the previous points.

Should any of the situations listed in the Code of CONDUCT OF BORSA ITALIANA S.P.A. as conditions for the non-independence of non-executive Directors exist, the Board of Directors shall examine on a case-by-case basis whether or not the individual has the necessary requisites to be qualified as an Independent Director.

On the basis of paragraph 4, Art. 147-*ter* of the T.U.F., at least one member of the Board of Directors, or two if the Board of Directors has more than seven members, must have the requisites of independence established for statutory auditors and

therefore in accordance with the terms of paragraph 3, Art. 148 of the T.U.F., the following individuals cannot be considered as independent:

- a) the spouse, relations and relatives up to the fourth degree of kinship of the Directors of the Company, the Directors, the spouse, relations and relatives up to the fourth degree of Directors of the companies controlled by the former and of the companies which control it and those subject to joint control;
- b) those who are linked to the Company or to the subsidiaries of the Company or to companies which control it or to companies subject to joint control or those linked to the Directors of the company and to the individuals mentioned in the previous point through a working relationship, be it of regular employment or of a freelance nature, or by any economic or professional relationship which could compromise their independence.

The independence of the Directors is assessed by the Board of Directors when they are appointed and then once a year. The Board gives the outcome of its assessment in the Report on Corporate Governance.

Art. 4 - The institution and the functioning of the internal committees of the Board of Directors

The Board of Directors sets up from among its members one or more committees, the function of which is to make proposals and give advice, defining their duties.

The committees consist of no less than three members all of whom are independent and who are coordinated by a chairperson. Minutes are taken of each committee meeting and the Chairman of each committee reports back on the same at the first Board of Directors Meeting. The chairperson can, if he or she feels it is necessary, invite any other individuals not on the committees whose presence could be useful for the proceedings of the meeting.

For organizational reasons the functions of the Appointments Committee and those of the Compensation Committee are combined in a single committee, called the Appointments and Compensation Committee, whose members must include profiles with adequate competence in finance or compensation policy.

The Appointments and Compensation Committee and the Control and Risk Committee function according to what is set out in their respective Rules.

The Control and Risk Committee, of which at least one member must have adequate experience in accounting and finance or risk management, as well as advising, making proposals and monitoring the Control and Risk System, also carries out the function of Committee for Related Party Transactions in accordance with the Rules for Related Party Transactions.

The duties assigned to the individual Committees of the Board of Directors are illustrated in the following articles.

Definition of the nature and level of risk compatible with the strategic

objectives of CIR

At least once a year when the budget is prepared, CIR carries out an overall assessment of its risks, quantifying them and evaluating their possible impact both of the achievement of results and in general on the management of its portfolio of equity investments.

The analysis is carried out with the methodological support of the document "Risk analysis and evaluation" given as an attachment (Annex a), which forms an integral part of this document. The outcome of this activity is a document that describes in full the level of risk for each business area and defines the action planned to mitigate the risks. The general content of the information produced is given in the document (Annex b) and must be discussed by the Risk Manager with the company management and with the Control and Risk Committee. The Control and Risk Committee can request clarification and/or additional information to be given in the document so that it can report back exhaustively to the Board of Directors. The Board of Directors must be put in the condition to be able to then easily assess whether the level of risk compatible with the strategic objectives of the Company is acceptable as it is set out in the document prepared by management and discussed with the Control and Risk Committee. The Board of Directors must give its opinion on the mitigation action proposed and on the amount of any residual risk.

The examination, discussion and definition by the Board of Directors of the nature and level of risk compatible with the Company's objectives is carried out through a critical analysis of the Control and Risk Committee's evaluation of the probability/impact of the risk and takes into consideration parameters relating to the operating result, shareholders' equity and the net financial position of the Company.

Operating steps

The above activity must be subjected to a complete review and ongoing monitoring during the year by the Risk Manager in close conjunction with those responsible for the process and with the Head of the Internal Audit department.

In practical terms the activity of the Risk Manager in conjunction with those responsible for the process consists of taking the following actions:

- a) Mapping out the company processes and updating them whenever necessary;
- b) Recording both internal and external risks for the individual processes on an annual basis;
- c) Measuring the risks in terms of probability / impact and assessing their effect on the business plans and on the budget;
- d) Analysing factors that can mitigate the risk;
- e) Presenting the results of the activity to the Control and Risk Committee

for examination and a preliminary discussion with a view to presenting the same to the Board of Directors.

The above activity is carried out following the methodological guidelines contained in the document "Analysis and assessment of risks" attached to this document, which are inspired by the framework "ERM - enterprise risk management" prepared by the "Committee of Sponsoring Organizations of the Treadway Commission" (COSO report).

Ongoing monitoring

The Risk Manager carries out a constant monitoring activity of the possible consequences of strategic, operating, compliance and reporting risks. He/she defines a series of information flows from the operating functions in order to continually monitor the level of risk. He/she reports back every three months to the Control and Risk Committee and coordinates the work of the risk managers of the subsidiaries, where they exist, in the preparation of a document for assessing and monitoring risk. For the 100% controlled subsidiaries, the analysis and assessment of their risk are managed directly by the Risk Manager of CIR.

Timing for the annual analysis and assessment of risks

By October 31 the Risk Manager meets with the Control and Risk Committee to illustrate the annual risk analysis and assessment of the Company. The Control and Risk Committee analyses the document and goes into more depth where necessary during the following months of November and December to then put the final document before the Board of Directors when they meet to approve the budget in January. .

At the Board of Directors Meeting held on October 29 2012, the Company also adopted *Guidelines for implementing the internal control and risk management System of the companies of the Group*.
