Milan, July 23 2013 – The **Board of Directors** of **Sogefi SpA**, which met today under the chairmanship of **Rodolfo De Benedetti**, approved the **Interim Financial Report** of the group for the **first half of 2013**.

Sogefi, the automotive components company of the CIR group, is one of the main world producers of engine systems and suspension components with 43 production plants in 21 countries and 18 commercial offices.

Performance of operations

In the first six months of the year with revenues substantially unchanged (but 2.2% higher with the same exchange rates), **Sogefi succeeded in obtaining a significant increase in its profitability** compared to the same period of 2012, inverting the trend seen in the first quarter. This result was obtained thanks to its **ongoing strategy of focusing on non-European markets**, which reached **35% of the total revenues of the group**, and were up by four percentage points compared to the first half of 2012.

Regarding the performance of the world car market in the first six months of 2013, the rise in new car registrations in the United States (+8% on the first six months of 2012), in Brazil (+4.8%) and in China (13%) compensated for the continuing weakness in Europe (-6.6%).

Consolidated results

Sogefi closed the first half with **consolidated revenues** of \notin **681.7 million**, **substantially in line** with the figure of \notin 686.8 million reported for the first half of 2012 (-0.7%; +2.2% with the same exchange rates). The figure benefited particularly from the positive performance of the second quarter, with **consolidated revenues reported up by 3.7% (+6.7% at the same exchange rates) at** \notin **352.5 million** (\notin 339.9 million in the second quarter of 2012).

In the first half, the **Engine Systems Division** reported revenues of \notin 416.7 million and the **Suspension Components Division** revenues of \notin 266.2 million (\notin 412.9 million and \notin 275.1 million respectively in the same period of 2012). In the second quarter in particular, both divisions contributed to the growth in revenues: the Engine Systems Division achieved the highest increase (+5.0% at \notin 214.8 million versus \notin 204.6 million in the second quarter of 2012), while the Suspension Components Division reported growth of 1.8% to \notin 138.3 million (\notin 135.8 million in the same period of 2012).

An important factor is the continuing **growth in North America**, which with revenues close to \notin 90 million in the first half (+18.4%) **currently represents 13.1% of the total sales** of the group (+2.1 percentage points on last year). **Growth in Asia** was also particularly significant, with revenues up by 34% compared to the first half of 2012. **Lastly, the result of the Mercosur area was also very positive** (+9.2%), with performance 2.3 percentage points higher than the market despite the effect of unfavourable exchange rates. In Europe Sogefi reported revenues of \notin 443.1 million, with a contraction of 6.6% on the previous year but in line with the market trend.

The better geographical mix led to an increase in the consolidated operating result in the first half of \notin 51.3 million (+4.7%). The figure was driven by the strong growth (+20.1%) reported in the second quarter (\notin 29.3 million up from \notin 24.4 million), with a ratio to sales rising to 8.3% from 7.2%.

Consolidated EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) came to € **71.2 million** and was **up by 3.9%** on the same period of 2012 (€ 68.5 million). In the second quarter the increase was 15% (€ 39.1 million), with a ratio to sales of 11.1% (€34 million in the second quarter of 2012, with a ratio to sales of 10%).

EBIT for the first half came in at \notin **43.2 million and was up by 16.6%** compared to the same period of last year (\notin 37.1 million). In the second quarter the growth was **49.4% reaching** \notin **25 million**, with a ratio to sales of 7.1%. This was an improvement of 2.2 percentage points compared to second quarter 2012 (\notin 16.8 million with a ratio to sales of 4.9%).

The result for the first half **before taxes and minority interests** came to \in 30.5 million, posting growth of 10.7% compared to the previous year (\in 27.6 million). The result for the second quarter came in at \in 18 million and was up by 50.4% compared to the figure of \in 12 million last year. Although higher, this figure was impacted by higher financial expense following the recent debt refinancing process which led to credit facilities signed before the crisis being replaced by new credit lines set at current market prices.

The consolidated net result for the first half was a positive \in 16.2 million, up by 3.9% on the same period of 2012 (\in 15.6 million), with a ratio to sales stable at 2.4%. The net income for the second quarter was up by **39.1%** at \in 9.2 million with a ratio of 2.6% to sales, an improvement on the 1.9% reported in the second quarter of 2012 (\notin 6.6 million).

At June 30 2013 **net debt** stood at \notin **341.1 million** (\notin 311.9 million at March 31 2013 and \notin 295.8 million at December 31 2012). The rise in the quarter was due to the distribution of dividends for \notin 17.2 million and to the increase in working capital linked to the expansion of business activity in non-European countries.

At June 30 2013 consolidated equity including minority interests totalled € 192 million (€ 200.2 million at December 31 2012).

At the close of the first half of 2013 the Sogefi group had **6,727 employees,** substantially unchanged from the 6,735 on the payroll at December 31 2012.

OUTLOOK FOR THE YEAR

For 2013 the expectation of slight growth in the global car market is confirmed, with weakness in both production and sales in Europe, growth in Asia and continuing solidity in the markets of North America and Latin America.

In this context Sogefi plans to:

- intensify the internationalization of the group;
- continue to take action to increase efficiency even through a greater integration of the group.
